MARSHALL'S *Lawn Grass Seeds*

Marshall's Lawn Grass Seeds have given universal satisfaction for the past 30 years and are used on many of the largest estates in every section of the country for making the best lawns. Our mixtures contain only the best grades of recleaned grasses, blended in proportions to give quick and permanent results.

MARSHALL'S "DUROGREEN" LAWN GRASS

Marshall's "Durogreen" Lawn Grass Mixture (formerly called **Special Lawn Grass**) produces a perfect as well as permanent lawn of luxuriant richness. It quickly forms a closely interwoven, firm and elastic turf ready for cutting in about 6 weeks from time of sowing. This **"Special"** mixture is the result of years of experimenting and is composed of the proper proportions of fine-leaved, deep-rooting, perennial grasses which will thrive under varied conditions of soil and climate, maintaining a succession of growth during the different seasons of the year, thus insuring a rich, deep green, smooth and velvety lawn, free from clumps.

This is a scientifically blended mixture, containing only the highest grade of recleaned seeds of Red-Top, Kentucky Blue, Chewing's Fescue, and Colonial Bent grasses, blended in proper quantities.

Lb. 70c; 5 lbs. $3.25; 25 lbs. $15.50; 100 lbs. $60.00

MARSHALL'S "Shady Place" Lawn Grass

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

Lb. 75c; 5 lbs. $3.50; 25 lbs. $16.50; 100 lbs. $65.00

MARSHALL'S "Matchless" Lawn Grass

Marshall's "Matchless" Lawn Grass Mixture (formerly called **Central Park**) still maintains a high place in the esteem of those who desire an even, dense growth of permanent sward very early in the season. This mixture contains no annual grasses so detrimental to a permanently good lawn. Only grasses of lasting value and extreme hardiness are used in this popular mixture and we exercise great care to use only the purest seed in the proper proportions in its blending. This mixture is recommended to those who desire a popular-priced mixture for average conditions and requirements.

Our Matchless Lawn Mixture is prepared from our own formula and must not be confused with many mixtures that are sold under this name. It is composed of only the best recleaned seeds, containing Kentucky Blue, Fancy Red-Top, Fescue, Perennial Rye and a small quantity of White Clover, all blended to warrant perfect results.

1 lb. will sow a plot 15 x 15 ft.; 3½ lbs., 25 x 40 ft. (1000 sq. ft.); 150 lbs., 1 acre (43,565 sq. ft.).

Lb. 55c; 5 lbs. $2.50; 20 lbs. $9.00; 100 lbs. $45.00

All Grass Seed delivered prepaid when cash accompanies the order.
Prices of other mixtures, also separate varieties of Grasses and Clovers, on application.

MARSHALL'S *Matchless* DARWIN TULIPS

(MAY-FLOWERING)

The Darwin Tulips, while among the last of the race to bloom, are easily first in the affections and esteem of flower lovers. Gorgeous in color, easy to grow, splendid as a cut-flower, superb in mass plantings in shrubbery, they may be easily forced if brought into the conservatory or greenhouse not earlier than January.

The heights of the flowers are given in inches. Varieties marked with an asterisk (*) are good for forcing.

Varieties marked I are imported for orders which must be received not later than October 15.

Not less than 6 bulbs sold at dozen rate; 25 bulbs at 100 rate

DARWIN TULIPS IN MIXTURE

Mixed Darwin Tulips are unsurpassed for group planting, massing, and for naturalizing. When so planted they form brilliant patches of color silhouetted against the rich verdure of the early summer season. The shades of colors included in our mixtures are judiciously blended so as to create delightfully artistic ensembles.

DUTCH BREEDER TULIPS

Breeder Tulips bloom at the same time as the Darwins, and their immense blooms are held erect on long, strong stems. The colors of the Breeders are what modernists term as "art" or pastel shades, embracing rich tones of bronze, yellow, and purple. For association with the brighter-hued Darwins, they are unsurpassed.

Marshall's PARROT and BOTANICAL TULIPS

BOTANICAL TULIPS

(TULIPA SPECIES)

Here we offer a galaxy of exquisite floral treasures to those fastidious gardeners who desire something ehoice and unusual. They are just the treasures to stimulate the keen enjoyment of gardening, so often surfeited with the eommoner—but beautiful—bulbs offered and so universally grown.

It is well nigh impossible to attempt to visualize or portray in words the beauty afforded by these gems. Tueked away in generous quantities in the roek-garden or border, they will be seen to advantage but are perhaps at their best in colonies or sloping hill or bedeeking the borders of brook or waterside.

They are easy to grow, hardy, and give abundantly of their vivid blossoms under ordinary care. With eaeh passing year they increase in magnificenee and number. They are moderately prieed so as to enable flower lovers to grow them in generous quantities.

	Doz.	100
Chrysantha. Yellow; outer petals browned, flushed lilac; inside yellow. Small flower. 16 in.	$1 00	$7 50

MARSHALL'S FINEST MIXED. A combination of all the above sorts	75	5 00

Tulip, Monsieur S. Mottet

MULTI-FLOWERED TULIPS

The descriptive name of these Tulips is very apt as every stem braneh es freely on its upper half, usually putting out about half a dozen braneh es, eaeh ending in a normal-sized bloom. For some unknown reason these flowers seem to last longer than do Tulips whieh produee only one flower to a stem, so that they not only make a longer-than-usual garden picture but for eut-flower purposes are unexeelled, one stem making a lovely bouquet for a medium-sized vase.

	Doz.	100

Single Early Tulip, De Wet

MARSHALL'S SINGLE AND DOUBLE TULIPS

MARSHALL'S SINGLE EARLY TULIPS (APRIL-FLOWERING)

Tulips are the most popular and effective of all hardy bulbous plants for bedding. In our descriptions we give the color and average height to which they grow. They are invaluable for pot-culture and forcing for winter cut-flowers.

For outdoor planting, 4 inches to the bottom of the bulb is deep enough, and a distance of 5 to 6 inches between the bulbs is sufficient. They may be planted in October and November.

A, B, and C indicates season for flowering. A and B may be planted to flower about the same time in the open ground; C flowers later. The figures indicate average height in inches.

Not less than 6 bulbs sold at dozen rate, 25 at 100 rate

Nimrod. Deep rose, a fine forcer and earliest of all	1 75	12 00

Giant Trumpet Narcissus, King Alfred

Marshall's Narcissi and Daffodils

Daffodils are an indispensable factor in the pageant of spring floral beauty, and whether grown as specimens in the garden borders or planted *au nature* in woodland or glade, each blossom seems a concentrated gleam of golden sunshine. Absolutely hardy, they increase in beauty and size year after year. Our list has been carefully compiled and contains all that is best in these splendid bulbs.

Incomparabilis varieties are crosses between yellow Trumpets and Poeticus, with larger crowns than the Barri types.
Barri types have crowns usually not over one-third the length of the perianth petals.
Leedsi varieties always have white perianth petals and the crowns are mostly white or light yellow.
Poetaz kinds have a bunch of flowers on each stem and are very fragrant.

(The prices quoted are for the very largest bulbs)

DAFFODILS FOR NATURALIZING

There is no more enchanting picture in spring than a natural planting of Daffodils, so arranged in groups that the individuality of each species may be maintained. An irregular massing should be made where the grouping is dense in the center with a thinning out toward the edges like a summer cloud.

We have made most satisfactory arrangements with an extensive grower of Narcissus in the northwestern area of the State of Washington, a section renowned for growing sturdy Daffodils, to supply us with a quantity of bulbs of certain varieties that are most adaptable for naturalizing purposes.

Practically any soil has been found suitable but when planted under trees and in woodlands, the leaves of the trees should not be removed, as taking away this natural food will not only injure your trees but also will prevent the Daffodils from producing as they should.

Plant 8 inches deep but avoid places where water may collect as they like drainage.

Plant them before October 15 or shortly thereafter. Place your order early as the demand is increasing for these bulbs at this special low price.

POLYANTHUS NARCISSUS

The Polyanthus varieties all are suited for growing in pots with pebbles or fibre. They are very free flowering, bearing 6 to 9 flowers on a stem. They are not hardy enough to be planted out-of-doors in the northern states.

	Doz.	100	1000
Grand Soleil d'Or. Yellow with orange cup. Very free flowering	$1 70	$10 00	$95 00
Paper-White Grandiflora. The best Narcissus for growing in water. The flowers are large, attractive in color, and intensely fragrant. Planted in bowls of pebbles and water they will bloom in from 3 to 6 weeks, depending on the season planted. Only the largest bulbs procurable should be used. Small bulbs are not recommended.			
Mammoth Bulbs.	80	5 50	50 00

Not less than ½ dozen sold at dozen rates.

PRE-COOLED NARCISSUS FOR CHRISTMAS FLOWERING

These bulbs have been undergoing a cooling treatment and should be potted up immediately on receipt and placed in a cool cellar for proper root-action which is completed much more quickly than untreated bulbs. They should never be placed in heat until the bud appears in the crown.

Order should be placed before July 10 to allow time for precooling. CASE LOTS ONLY

King Alfred. Golden yellow trumpet. The best for early forcing. Case (100 bulbs), $16.00.

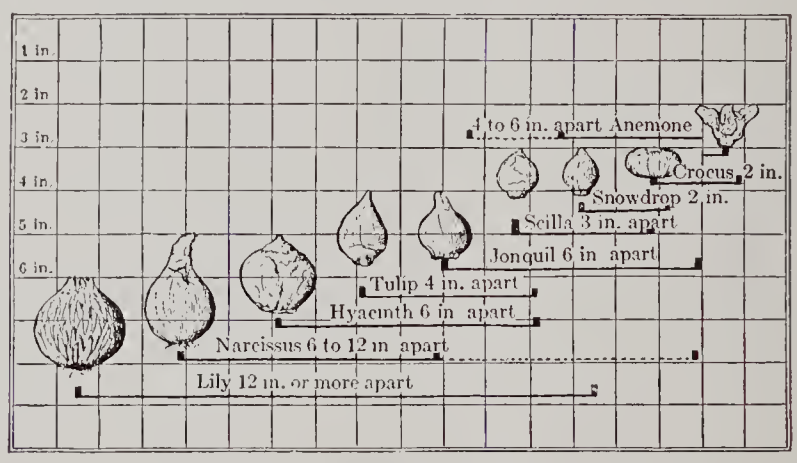
Helios. (Incomparabilis.) Large, trumpet-shaped cup, opens light orange, changing to deep orange; deep golden yellow perianth. Early. Case (100 bulbs), $14.00.

Full directions sent with each shipment for handling after arrival.

The above are largest double-nose bulbs.

Planting Table for Beds of Bulbs

A circular bed 6 feet in diameter, with bulbs 6 inches apart, requires 110 bulbs; 5 inches apart, requires 160 bulbs; 4 inches apart, 300 bulbs.



Depth at Which Bulbs Should Be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers.

HARDY LILIES
of Outstanding Merit

LILIUM HUMBOLDTI

NEW HYBRIDS

George C. Creelman (The Creelman Lily). Originated in Canada from a cross, using pollen from *L. Sargentiæ* on *L. regale*. The vigorous plant bears long brown flower-buds, expanding to a white-faced flower with yellow tube and chocolate anthers. 6 to 8 ft. Selected bulbs, $4.00 each.

The late Dr. Griffiths was successful in raising some remarkable hybrids by using *L. Humboldti*, *L. pardalinum*, and *L. Parryi* as parents. The prevailing colors are cadmium-orange, faintly flushed red, with green at base. All heavily spotted black to red. We offer Shuksan as one of the best.

Shuksan. $1.50 each; $14.00 per doz.

Maxwill. An excellent hybrid of *L. Maximowiczi* and *L. Willmottiæ*, combining the lateness of the former with the free-flowering qualities of the latter. $1.00 each; $7.50 per doz.

The Sunset Lily (*L. Chinooki; L. pardalinum giganteum*). Supposed to be a natural hybrid of *L. Humboldti* and *L. pardalinum*, combining the sturdiness of both species. Tall in growth. Color brilliant red with yellow center and freely spotted maroon. Large flowering bulbs. $1.00 each; $10.00 per doz.; $75.00 per 100.

Tenuifolium, Red Star. An entirely new hybrid form of *L. tenuifolium*. The perianth segments do not recurve, thus forming a flat, star-shaped flower. The brilliant red flowers are borne on strong stems. 1 to 1½ ft. 40c each; $4.00 per doz.; $30.00 per 100.

Tenuifolium, Goldfinch. A splendid new and distinct form of *L. tenuifolium* with large, light golden yellow flowers on strong stems. Well worth growing. 75c each; $7.50 per doz.; $55.00 per 100.

Marshall's Fall Collection of Hardy Lilies

We have prepared the following collection of Hardy Lily bulbs for delivery in October, a most suitable time for planting. If planted according to directions, should produce an abundance of bloom throughout the entire season, commencing with *L. tenuifolium* in May and finishing with *L. speciosum* in September, and if left alone will increase in beauty and numbers from year to year.

Japonicum Krameri. Soft pink, fragrant flowers.
Hansoni. Flowers yellowish orange.
Martagon. Clusters of purple flowers.
Tigrinum splendens (Single Tiger Lily).
Philippinense formosanum. Long white trumpet.
Regale. White with pink shadings on back.
Speciosum magnificum. White, rosy red blotches.
Umbellatum grandiflorum. Large; brilliant red.

Above Collection, 3 each of 8 varieties (24 good flowering bulbs) with cultural directions, sent postpaid for $5.00

MARSHALL'S *Matchless* HARDY LILIES

Among the stateliest of all hardy plants, Lilies, during their respective flowering seasons, constitute the chief attraction in the hardy border. They prefer a well-drained soil, and should remain undisturbed for years. In the autumn give the bulbs a heavy mulching of leaves; coarse manure or straw will prove highly beneficial.

LILIUM TENUIFOLIUM

LILIUM HANSONI

LILIES FOR FORCING

Lilium philippinense formosanum

We believe this to be one of the most satisfactory of all hardy white Lilies. From the original tall, late-flowering variety, we have selected a very fine, pure white strain which we now offer.

See page 19.

Lilium Harrisi

	Each	Doz.	100

9 to 11 in.....	$0 60	$6 00	$45 00
Jumbo Bulbs.			
11 to 13 in.....	1 00	11 00	80 00

A few selected single-crown bulbs for exhibition purposes, measuring 12 to 14 in., $18.50 per doz.; case (25 bulbs) $35.00.

Lilium longiflorum giganteum

This variety flowers somewhat later than *L. multiflorum*, but the flowers are larger, of great substance and perfect form.

	Doz.	100
Monster Bulbs. 10 to 12 in.	$5 50	$40 00

Lilium formosum

The Erabu type from the Island of Formosa. Pure white flowers, larger than those of *L. Harrisi*.

This has become one of the most popular of all of our white Lilies, not only for foreing purposes but in the garden. It is a strong, healthy grower and while the flowers are deliciously fragrant, the fragrance is not overpowering as some Lilies are.

Lilium candidum

(Ascension or Madonna Lily)

This is the old-fashioned garden Lily. The many snow-white flowers, borne on a stem 3 to 4 feet high, make this Lily most effective. Very large bulbs, ready for delivery in September. Northern-grown.

Although there are many desirable white Lilies, none can take the place of the old favorite Madonna.

MISCELLANEOUS BULBS AND ROOTS
FOR FALL PLANTING

Eremurus

Allium

These Alliums are all very beautiful and perfectly hardy. The three listed are most desirable for rock-gardens, growing 8 to 10 inches high.

Falcifolium. Fine rosy purple. 80c per doz.; $5.00 per 100.
Purdyi. Splendid pink. 80c per doz.; $5.00 per 100.
Unifolium. Deep pink. 80c per doz.; $5.00 per 100.

Amaryllis

They should be grown in rich, sandy loam, with good drainage, and require abundant moisture when growing; but at their season of rest, water should be given sparingly.

Hippeastrum, New Hybrids. All colors mixed. 65c each; $7.00 per doz.
Formosissima (Jacobean Lily). Brilliant scarlet flowers of a very odd shape and formation. 35c each; $3.50 per doz.
Halli. See **Lycoris squamigera.**
Johnsoni (St. Joseph Lily). Crimson-scarlet with broad white stripe down the center of each petal. 50c each; $5.00 per doz.

Amorphophallus Rivieri
(African Lily)

The immense, dark red, calla-shaped flower precedes the leaves on this interesting plant. Its stem is mottled green and white. The foliage, which opens later, stands on a stalk resembling an umbrella and forms a very ornamental plant. We can supply mammoth bulbs which can produce blooms in the house during the winter. $2.00 each; $5.50 for 3.

Anemone coronaria

Marshall's Selected Double, Mixed. A specially selected strain for greenhouse forcing. Flowers are double and semi-double, measuring 2½ to 3 inches in diameter. Camassia

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open, moist woods or in not too dense a grassy growth. The flower stems are 3 feet high with as many as a hundred star-shaped flowers measuring 1½ inches across and flowering in long succession. September delivery.

Esculenta. A purple form, rich in color. Grows 2 feet high. Very showy in masses. 80c per doz.; $5.00 per 100.
Leichtlini. Grows 3 feet high, with as many as 100 sky-blue, star-shaped flowers of the finest form, and about 1½ inches across. Blooms in long succession. $1.50 per doz.; $10.00 per 100.

Chionodoxa (Glory-of-the-Snow)

A hardy, early-flowering, bulbous plant which is closely allied to the scilla but differs, among other characters, in having a short tube to the corolla. A good companion to the scilla and snowdrop.

Luciliae. Bright blue with white eye. 60c per doz.; $3.00 per 100; $27.00 per 1000.
Sardensis. Dark blue with no white. 60c per doz.; $3.00 per 100; $27.00 per 1000.

Crocus, Spring-flowering
Marshall's Named Crocus

Very early-flowering spring bulbs for planting in lawns, borders, or terraces. Bulbs should be planted in October. They can also be grown in bowls with prepared fibre or pebbles.

Enchantress. Light blue. The best blue.
Kathleen Parlow. Large, pure white flower.
Remembrance. Deep blue. Free flowering.
Striped Beauty. Lavender with white stripes.
Yellow. Golden yellow.

40c per doz.; $3.00 per 100; $27.00 per 1000

Mixed White Shades.
Large Golden Yellow.
Mixed, All Colors.

30c per doz.; $2.25 per 100; $20.00 per 1000

Crocus, Autumn-flowering

Suitable for borders, rock-gardens and planting with low-growing plants. The bulbs arrive in August and should be planted early in the fall.

Sativus. The true Saffron Crocus. The leaves appear before the flowers and are fringed with hairs at the edges.
Speciosus. The largest of the species. Color delicate blue flaked and blotched with deep violet-blue.
Zonatus. A beautiful soft lavender with anthers of white.

75c per doz.; $5.00 per 100

Cypripedium (Native Orchid)

Charming subjects for planting in acid soil and semi-shade. Fine for naturalizing.

Acaule. A glorious plant with broad green leaves from the center of which arises a stem carrying one large, mauve-pink blossom with contrasting, twisted sepals. It may be gently forced and does well in pots.
Pubescens. Pale yellow flowers in May and June with slightly twisted petals. The plant is found under natural conditions as far north as Newfoundland.

Strong crowns of above two varieties, 75c for 3; $2.50 per doz.; $18.00 per 100

Spectabile. By far the best of the Cypripediums, with white to rose-purple flowers. Does exceedingly well in moist or partly shaded beds of peat or leaf-mold. Clumps, $1.50 for 3; $5.00 per doz.; $35.00 per 100.

Dielytra spectabilis
(Bleeding-Heart)

Long, drooping racemes of pink flowers. Strong forcing clumps. October delivery. $2.00 for 3; $5.50 for 10; $50.00 per 100.

Eranthis hyemalis
(Winter Aconite)

A very hardy bulbous plant with beautiful bright yellow flowers, produced in early spring on stems about 6 inches high. Excellent for naturalizing in half-shady positions. 75c per doz.; $4.00 per 100; $32.00 per 1000.

Eremurus
(Foxtail Lily; King's Spear)

A noble family of hardy plants, most delightful and desirable for stately and colorful groups in large plant borders and shrubberies. They are perfectly hardy, and, when well established, produce dozens of giant flower-spikes, like huge hyacinths, attaining a height of from 6 to 10 feet, the flower-spikes (comprising several hundred flowers) being from 2 to 3 feet long. They are best planted in early fall and thrive in any sunny, well-drained border. They should be planted in early fall only, as it is dangerous to disturb them in spring, when they make an early growth. These wonderful, gigantic flowering plants do not require a great depth of soil, as the fleshy roots spread outward. The plants disappear above ground after flowering and annuals may be planted close to them to fill the vacant space. A mulching of wood-ashes is advised as a winter protection for the crowns, and when the flower-spikes appear in early spring a slight protection from the late frosts is necessary. We would recommend the Ever Ready Plant Protector, made of waterproof paper.

The following list includes some of the finest and rarest in commerce, flowering in various months, as indicated, in spring and early summer.

Bungei. (July.) Vigorous. Enormous spikes of widely expanded clear yellow flowers. 4 ft. $1.00 each.

Elwesi. (June.) Beautiful, delicate pink flowers, thickly set in tall, noble and stately spikes. 8 to 10 ft. $2.50 each.

Elwesi albus. (June.) Pure white flowers similar in form and height to the preceding. A magnificent novelty. $2.50 each.

Himalaicus. (May to June.) Waxy white flowers with golden anthers, developing huge stems and flower-spike. 8 to 10 ft. $1.50 each.

Robustus. (June.) Rosy pink flowers in a spike 3 to 4 feet long, standing on an 8 to 10-foot stem. One of the finest in the group. $2.50 each.

Shelfordi. (July.) Coppery yellow inside, tinted ruddy bronze outside. Flowers arranged close together on an 8-foot spike. $1.25 each.

Shelfordi, Rosalind. (July.) Pure pink. $2.50 each.

Warei. (July.) A grand hybrid of tall stature, the actual inflorescence being 3 feet long, studded with myriads of coppery pink flowers shot with bronze. A rare plant, very richly colored. 8 ft. $3.75 each.

The above are offered in strong, flowering, field-grown crowns for October delivery

Erythronium
(Dog-Tooth Violets)

Charming spring-flowering woodland plants that thrive best in shady places where there is a fair amount of moisture. They are always attractive because of their beautifully mottled foliage. Excellent for shady rock-gardens. September delivery.

Californicum. Cream-colored flowers, 4 to 5 on a stem. 85c per doz.; $6.00 per 100.

Grandiflorum robustum. A superb species. Flowers of the brightest buttercup-yellow. $1.00 per doz.; $7.50 per 100.

Revolutum Johnsoni. The most beautiful of all the Erythroniums. A stout plant producing exquisite rose-pink flowers. $1.80 per doz.; $13.50 per 100.

FREESIA

One of the most beautiful of all Cape bulbs, possessing a peculiar grace of form, and its fragrance is most delightful, one pot of 5 or 6 bulbs being sufficient to perfume a whole house. As cut-flowers, they are extremely valuable.

White Varieties

Elder's Giant White. Patent No. 17. Very large white sort with strong stem and foliage. Monster bulbs, $1.20 per doz.; $8.00 per 100; $75.00 per 1000.

Purity. A magnificent snowy white, of very large size and great length of stem. Truss bears from 8 to 10 buds, of which 6 are often open at once. Monster bulbs, 75c per doz.; $4.00 per 100; $35.00 per 1000.

Schroeder's White Perfection. Patent No. 237. The best white variety. A vigorous grower with extra-large flowers on strong, stiff stems. 75c per doz.; $4.00 per 100; $35.00 per 1000.

White Chief. A strong-growing pure white variety which has become very popular. We are now able to supply bulbs at a very reasonable price. Monster bulbs, 85c per doz.; $5.00 per 100; $45.00 per 1000.

Tristis Hybrids. An improvement on the above. Blooms larger, varying from pale cream to pure white. Early flowering. $3.50 per doz.; $20.00 per 100.

Gladiolus, Picardy

Rodopel

Protects Bulb Plantings Against Ravages of Rats, Mice, Moles and Other Destructive Rodents

Rodopel is a new material so highly distasteful to rodent pests that they refuse to go near it in their search of food.

It does not kill rodents but drives them away from the plantings. It is harmless to pets and birds.

2-gal. size (for 100 bulbs) $2.00
5-gal. size (for 250 bulbs) 3.75

25 bulbs sold at the 100 rate

Gloriosa Roehrsiana

A gorgeous, lily-like plant climbing from 6 to 10 feet high and bearing a profusion of orange-scarlet flowers. A beautiful plant for greenhouse or conservatory use. October delivery. Dormant tubers, $1.50 each.

Grape Hyacinths
(Muscari)

Charming, hardy spring-flowering bulbs. They are something like the hyacinth, but the clusters are smaller and the individual flowers are smaller and of different shape. Invaluable for naturalizing.

Armeniacum. Deep cobalt-blue flowers, larger than Heavenly Blue, very fragrant. Fine for massing or forcing. 60c per doz.; $3.50 per 100.
Botryoides. White. 70c per doz.; $4.00 per 100.
Heavenly Blue. Fine for mass planting in borders. 50c per doz.; $3.50 per 100.
Plumosum (Feather Hyacinth). Large plumes of lilac-purple. 85c per doz.; $6.00 per 100.

Helleborus niger
(The Christmas Rose)

This interesting hardy plant can be grown in any sheltered position. Frost and snow apparently have little effect on its blooming, as whenever a thaw happens in the early winter, the flowers appear untouched.

The color is white, suffused with pink, and if sheltered in a glass coldframe they will turn almost pure white, on stems from 6 to 12 inches in length, flowers from 2 to 3 inches across. Extra-strong clumps, $10.00 for 10. Delivered free in September and October.

IRIS

MISCELLANEOUS BULBS AND ROOTS FOR FALL PLANTING

Lycoris squamigera

Lily-of-the-Valley

For forcing, the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil.

Marshall's Matchless Pips. The earliest, largest and best for forcing. Extra-strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. $8.00 per 100; $18.00 for 250; $60.00 per 1000. Ready in December.

Field-grown Clumps. We recommend fall planting of Lily-of-the-Valley for outdoor culture and can supply exceptionally vigorous, field-grown clumps at $1.50 for 3; $5.00 per doz.

Lily-of-the-Valley Pips

From Cold Storage

We have in storage a large quantity of Dresden pips for forcing at any season.

Lily-of-the-Valley can be forced in about four weeks from cold-storage pips. We cannot supply less than 250 pips.

Marshall's Matchless Pips. Case of 250 for $20.00. Case lots only.

Any of above, 85c per doz.; $6.00 per 100

MARSHALL'S EARLY-FLOWERING SPENCER SWEET PEAS

The Early-flowering Spencers bloom about two weeks earlier than the late-flowering varieties when grown under congenial conditions. The flowers are beautifully waved and produced on long stems, four flowers predominating on each stem. For winter flowering under glass or in the southern states they far surpass the Late Spencers. When grown in the open ground they will usually bloom in about 100 days after planting.

MARSHALL'S
POT-GROWN
STRAWBERRIES

FOR SUMMER AND FALL DELIVERY

The best time to plant pot-grown Strawberries is during the month of July and early part of September. They have the great advantage over "layer" plants of producing a crop of the largest and finest berries the first season after planting. Further than this, they may be safely planted in the hottest and driest weather without serious check to growth, and may be planted where early potatoes, peas, or other early crops have been harvested.

Extra-Early Varieties

	25	100
Early Jersey Giant. The earliest variety, producing large fruit, with a rich, wild Strawberry flavor	$2 25	$8 00
Premier. Produces vast quantities of sizable attractive berries of excellent quality	$2 00	$7 00
Success. An excellent variety with large, uniform berries of bright scarlet color	2 00	7 00

Everbearing Varieties

Gem. The new everbearing sensation, producing bright, sparkling red berries, uniformly large in size. They are solid red to the center, juicy, deliciously sweet, and very free from acid. A winner in flavor, quality, size, beauty and yield. Does well on all types of soil	2 75	10 00
Mastodon. "The Wonder Berry." One of the largest, most delicious and heaviest yielding of the everbearing sorts	2 75	10 00
New Perfection. This is the Strawberry which has taken California by storm, and which has produced 18,000 baskets per acre of huge, delicious fruit over a bearing period from mid-spring until very late fall	3 50	12 00
Progressive. A popular variety with two large crops, one in June and a second which lasts throughout the fall	2 75	10 00

Medium-Early Varieties

	25	100
Bun Special. A very productive variety with large, luscious fruit	$2 00	$7 00
Dorsett. Large, bright red, firm berries of excellent quality. Introduced by the U. S. Department of Agriculture	2 00	7 00
Fairfax. The best of the medium-early class. Fine large bright red berries of extra size. Another introduction of the U. S. Department of Agriculture	$2 00	$7 00
Senator Dunlap. A large cropper with firm berries of excellent flavor. Does well in almost any soil	2 00	7 00

Midseason Varieties

Brandywine. Produces bright crimson berries of excellent flavor	2 00	7 00
Catskill. A heavy yielder of excellent fruit, being very productive and of high quality	2 25	8 00
Glen Mary. Wonderful high quality and great productivity are the qualities of this berry	2 00	7 00
Joe. Large, firm berries in abundance. Equally attractive to the eye and palate	2 00	7 00
Marshall. Though an old berry it has lost none of its popularity. One of the best for forcing	2 00	7 00
McKinley. The berries are large, handsome and freely produced on strong plants	2 00	7 00

Late Varieties

Big Late. Ranks with best in vigor of plant-growth, productiveness and quality. Large, bright, glossy red berry	2 00	7 00
Chesapeake. This variety requires high culture upon clay loam. The berries are firm and bright crimson in color	2 25	8 00
Gandy. An old and popular variety. The texture is of the firmest and the color a bright flame	2 00	7 00
New Washington. An excellent variety of high quality. We recommend giving this a trial	2 00	7 00
William Belt. Fruits from early to late on any soil. Very large crimson berries	2 00	7 00
